SKILLS

OOP

JAVA , JAVA SWING , JAVA FX

HTML , CSS , JS , PHP

ES6 , TYPESCRIPT , ANGULAR , IONIC

MYSQL , NOSQL (JSON)

UNITY(C#)

TEAMWORK , LEADERSHIP

LEARNING , TIME MANAGEMENT

PROFILE

" I am a young enthusiast who is really keen to learn new things and ready to accept any challenges thrown at me , so i am adoptive to the changes of the industry also i was engaged in product development from a very young age "

EDUCATION

2017-PRESENT

UNDERGRADUATE PROGRAM INFORMATICS INSTITUTE OF TECHNOLOGY

B Eng (Hons) Software Engineering

Second Year Modules (Results pending)

- Software development group project
- Client Server Architecture
- Server side programming
- Object oriented programming
- Database systems
- Algorithms

First Year Modules - **AVERAGE : 81.3%**

- Mathematics for Computing — 100%
- Computer Systems Fundamentals — 86%
- Web Design and Development — 79%
- Programming Principles 1 — 78%
- Programming Principles 2 — 74%
- Computer Science Practice — 71%

2004-2016

SECONDARY EDUCATION

LYCEUM INTERNATIONAL SCHOOL WATTALA

Cambridge International AS and A2 Level

- Results - 2A* and 1A

Cambridge International O Level

- Results - 4A* , 2A and 1B

WORK EXPERIENCE

2017-2018

IGNITER SPACE

I worked as an intern with the Igniter space software engineering team at Startup X Foundry and got a massive exposure on industrial practices in software development

LEADERSHIP

2017-2018

MOZILLA CAMPUS CLUB OF IIT

President

2017-2018

IEEE COMPUTER SOCIETY OF IIT

PR and Media Director

2017-2018

INFORMATICS INSTITUTE OF TECHNOLOGY

Level 5 Batch Representative

EXTRA CURICULAR

2017 - PRESENT

Member of Rotract district 3220

2017 - PRESENT

Registered IEEE Member

2017 - PRESENT

Drummer of Harmonic distortion band

2017 - 2018

Toastmasters

2017 - 2018

Organizing committee of codesprint 3.0

HOBBIES

TRAVEL

VIDEO
EDITING

DRUMMING

KEY ACHIEVEMENTS

- Honorable mention - Startup weekend Kandy 2018
- 1st place - IIT IEEE day idea hack 2017
- 2nd place - Cutting Edge poster challenge 2017
- Finalists - HackIn 2017
- Finalist - FinTech Hack 2017
- Semi Finalist - Code Fest 2017
- Successfully completed - Hackboterfest Challenge 2017
- 1st place - Stage craft instrumental category, 2018
- 2nd place - IESL Junior Inventor of the Year Competition 2015
- 1st place - Lyceum International School annual fair 2015

NOTABLE PROJECTS

Igniter Bee Augmented Reality Application

A mobile application that can augment a 3D object, when the camera is pointed at a QR code (Refer my article in LinkedIn)

Technology stack: Unity (c#), AWS S3, Vuforia, Tinkercad

Sign Speaks

Signspeak is a wearable device (glove) which comes with a cross platform mobile application, which was made to address the communication barrier problem faced by differently abled individuals (Deaf and mute) and people with the hearing ability

Technology stack: Ionic 3, Node js, Heroku, Arduino, Mongo Db

Github Commit Tracker/Leaderboard

An open source project initiated by myself, which can track commits to a given set of github repos and generate a leaderboard based on the contributions

Technology stack: Angular 4, Mongo Db, Node js, Github Api

Cook Mate

A smart IOT container and a mobile application which can track food usage and help to reduce food wastage

Technology stack: Android, Firebase, Node Mcu
