SKILLS

OOP

JAVA, JAVA SWING, JAVA FX

ES6, TYPESCRIPT, ANGULAR, IONIC

HTML, CSS, JS, PHP

WEB/UI DESIGN

UNITY(C#)

LEARNING ABILITY

LEADERSHIP / TEAMWORK

PROFILE

I am a young enthusiast who is always keen to learn new things and overcome any challenges I would face. I am a constant adapter to the changing needs of the industry & is extremely passionate about self-learning & expanding my portfolio.

EDUCATION

JAN 2017 - PRESENT

Undergraduate Program Informatics Institute of Technology

B Eng (Hons) Software Engineering

Second Year Modules (Results pending)

- Software development group project
- Client Server Architecture
- Server side programming
- Object oriented programming
- Database systems
- Algorithms

First Year Modules - Average : 81.3%

- Mathematics for Computing — 100%
- Computer Systems Fundamentals — 86%
- Web Design and Development — 79%
- Programming Principles 1 — 78%
- Programming Principles 2 — 74%
- Computer Science Practice — 71%

SEP 2004 - JUL 2016

Secondary Education Lyceum International School Wattala

Cambridge International AS and A2 Level - 2016

- Results - 2A* and 1A

Cambridge International O Level - 2014

- Results - 4A*, 2A and 1B

WORK EXPERIENCE

DEC 2017 - JAN 2018

Software Engineer Intern

I worked as an intern for the IgniterSpace Software Development team at Startup X Foundry and got a massive exposure on industrial practices in software development

LEADERSHIP

FEB 2018 - PRESENT

President

Mozilla Campus Club of IIT

OCT 2017 - PRESENT

Pr and Media Director

IEEE Computer Society of IIT

FEB 2017 - PRESENT

Level 5 Batch Representative

Informatics Institute of Technology

EXTRA CURICULAR

MAR 2017 - PRESENT

Member of Rotract district 3220

MAR 2017 - PRESENT

Registered IEEE Member

APR 2017 - PRESENT

Drummer of Harmonic distortion band

MAR 2017 - 2018

Toastmasters

DEC 2017 - MAR 2018

Organizing committee of codesprint 3.0

HOBBIES

TRAVEL

VIDEO
EDITING

GRAPHIC
DESIGNING

DRUMMING

KEY ACHIEVEMENTS

- Honorable mention - Startup weekend Kandy 2018
- 1st place - IIT IEEE day idea hack 2017
- 2nd place - Cutting Edge poster challenge 2017
- Finalists - HackIn 2017
- Finalist - FinTech Hack 2017
- Semi Finalist - Code Fest 2017
- Successfully completed - Hackboterfest Challenge 2017
- 1st place - Stage craft instrumental category, 2018
- 2nd place - IESL Junior Inventor of the Year Competition 2015
- 1st place - Lyceum International School annual fair 2015

NOTABLE PROJECTS

Igniter Bee Augmented Reality Application

A mobile application that can dynamically augment a 3D object, when the camera is pointed at a QR code (Refer my article in LinkedIn)

Technology stack: Unity (c#), AWS S3, Vuforia, Tinkercad

Sign Speaks

Signspeak is a wearable device (glove) which comes with a cross platform mobile application, which was made to address the communication barrier problem faced by differently abled individuals (Deaf and mute) and people with the hearing ability

Technology stack: Ionic 3, Node.js, Heroku, Arduino, Mongo Db

Github Commit Tracker/Leaderboard

An open source project initiated by myself, which can track commits to a given set of github repos and generate a leaderboard based on the contributions

Technology stack: Angular 4, Mongo Db, Node.js, Github Api

Cook Mate

A smart IOT container and a mobile application which can track food usage and help to reduce food wastage

Technology stack: Android, Firebase, Node MCU
